3.1 Load the *Date* dimension of the *Data Mart* project, taking into consideration the following requirements:

- Generate it by using a *Visual Studio Analysis Services Project*.
- Load it only once, i.e., just if it has not been loaded before.

3.2 Load the *Time* dimension of the *Data Mart* project based on the CSV file generated last class. The dimension should be loaded only once, i.e., just if it has not been loaded before.
